June 11, 2026

The regulator circuits for the STM32, fans, equaliser and display have been designed

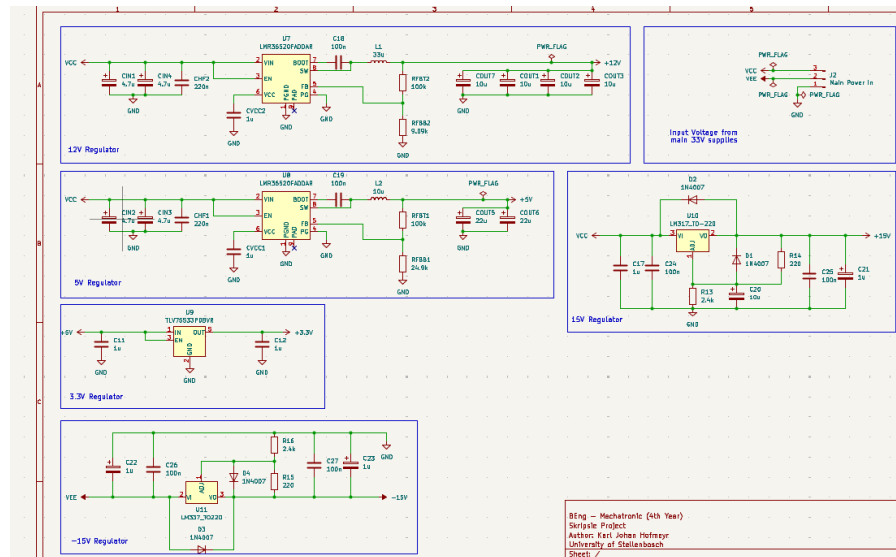

Figure 3: Voltage Regulator Circuits

The pinout for the stm32 has been chosen

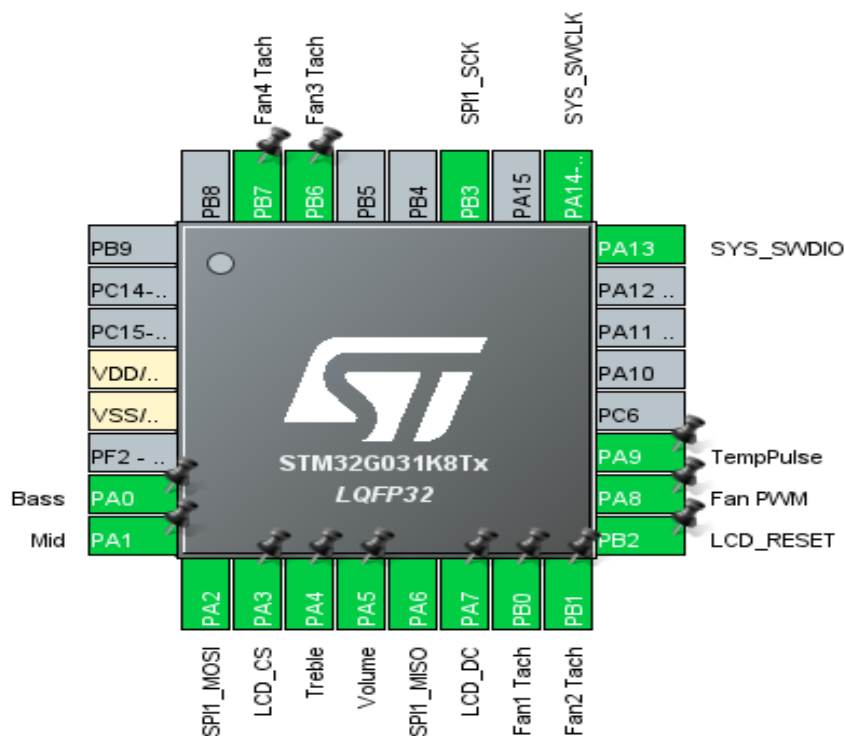

Figure 4: STM32 pinout setup

2 Work to Complete

- Complete schematics
- Finalise BOM materials and order components
- Start PCB designs
- Heat calculations for heat sink
- Possibly design linear power supply, better than switch mode
